PROFILE

Junior data analyst with a Bachelor in Marketing and an Advanced Bachelor in Business Data Analysis (EPHEC). I turn scattered data into clear dashboards and reports: **1,000+ rows** cleaned from several sources, **5 Power BI dashboards**, about **8,000 customer profiles** segmented, and recurring reporting for management. French native, professional English (C1).

EXPERIENCE

LexLau — AI Engineer & Data Analyst Intern | Brussels | Jun–Sep 2026

- Tested AI workflows (PDF, image, DOCX) for a legal application, with close attention to confidentiality and data protection.
- Structured workflow data, reproduced issues and compared expected and actual behaviour to document findings.
- Reviewed integrations in GitLab and staging, retested fixes and gave clear feedback to the product team.

ODRES GROUP — Digital Marketing & Data Assistant | Charleroi | Nov 2025–Jun 2026

- Structured company, supplier and product data in digital tools during client onboarding.
- Tracked commercial and acquisition KPIs and produced **recurring reporting** for management.
- Turned analyses into practical marketing and commercial recommendations.

Cryptobel — Marketing Data Analyst Intern | Brussels | Jan–Jun 2025

- Cleaned and structured **1,000+ rows** from multiple sources with SQL and Python.
- Built **5 Power BI dashboards** to track marketing, customer and performance KPIs; segmented about **8,000 customer profiles**.
- Thesis during the internship: collected **1,985** public Reddit and Instagram posts (Python, SQLite), prepared 645 messages for NLP and K-means clustering (**6 audience profiles**), 5-page Power BI report with recommendations per segment.

Additional experience: Sales Assistant, Delhaize Belgium (Oct 2024–Mar 2025) • Communication Intern, LJE (Feb–May 2023): community of 13,000+ followers, events with 600+ visitors.
