PROFILE

Marketing graduate (EPHEC, Arts & Culture track) with an Advanced Bachelor in Business Data Analysis. I connect audience understanding with measurement: about **8,000 customer profiles** segmented, **5 Power BI dashboards** on marketing and customer KPIs, a **135-respondent** market study and a community of **13,000+ followers** managed. French native, professional English (C1).

EXPERIENCE

Cryptobel — Marketing Data Analyst Intern | Brussels | Jan–Jun 2025

- Segmented about **8,000 customer profiles** to identify audience patterns and support targeting.
- Built **5 Power BI dashboards** to track marketing, customer and performance KPIs; cleaned **1,000+ rows** from multiple sources.
- Thesis during the internship: **1,985** public Reddit and Instagram posts collected, K-means clustering into **6 audience profiles**, recommendations per platform.

ODRES GROUP — Digital Marketing & Data Assistant | Charleroi | Nov 2025–Jun 2026

- Analysed digital acquisition and business performance and monitored KPIs.
- Produced **recurring reporting** for management and turned findings into marketing and commercial recommendations.

LJE (Les Jeunes Entreprises) — Communication Intern | Brussels | Feb–May 2023

- Managed and engaged a community of **13,000+** social media followers; planned publications.
- Wrote articles, press releases and social content; supported events welcoming **600+** visitors.

LexLau — AI Engineer & Data Analyst Intern | Brussels | Jun–Sep 2026

- Tested and documented an AI-enabled legal application, giving clear feedback to the product team.

PROJECTS

Éditions Komogi — Marketing Strategy & Customer Research

- Quantitative study with **135 respondents**; insights turned into recommendations for social media and bookstore channels.

Akira Fashion — Entrepreneurial fashion project

- Created social media posts, stories and promotional content; contributed to visual identity and product presentation.
