in [harry-mulembwe](#)

Junior Data & BI Analyst with a dual background in Marketing and Business Data Analysis. Hands-on experience in data cleaning, reporting, customer segmentation and dashboard creation using Power BI, SQL, Excel, Power Query and Python. I turn raw data into clear reporting and practical insights that support better business decisions.

PROFESSIONAL EXPERIENCE

AI Engineer & Data Analyst Intern | LexLau, Brussels

Jun 2026 - Sep 2026

- Contributed to the development and testing of an AI-enabled legal application.
- Analysed, structured and processed data used in application workflows.
- Tested AI features, documented findings and translated them into product feedback.
- Worked with confidential data and data-protection requirements.

Digital Marketing & Data Assistant | ODRES GROUP, Charleroi

Nov 2025 - Jun 2026

- Analysed digital performance and tracked marketing and business KPIs.
- Built recurring reporting for management and identified performance trends.
- Turned analytical findings into practical marketing and business recommendations.

Marketing Data Analyst Intern | Cryptobel, Brussels

Jan 2025 - Jun 2025

- Collected and structured 1,985 public Reddit and Instagram posts and comments with Python and SQLite.
- Built a 5-page Power BI report and turned audience segments into communication recommendations.
- Prepared 645 messages for NLP and K-means clustering and identified 6 audience profiles.

Additional experience: Sales Assistant, Delhaize Belgium (Oct 2024 - Mar 2025) | Communication Intern, LJE (Feb 2023 - May 2023)
